## REGGIO CHILDREN PUBLISHING

### *Exhibitions Publishing Ateliers*

**R**eggio Children weaves its publishing with the design of exhibitions and ateliers and professional development and research. In collaboration with Preschools and Infant-toddler Centres – Istituzione of the Municipality of Reggio Emilia\*, it promotes exchanges and reflections on children’s cultural creativity and on the determining role of education and public schooling in contemporary society.

**This publishing catalogue** presents projects and reflections from the Reggio Emilia Approach, catalogues of the several exhibitions, and research carried out starting from childhood and bringing together children’s different knowledges, voices, and thoughts. Reggio Children’s publications are also translated into several languages.

**SCUOLE E NIDI D'INFANZIA**  
Istituzione del  
Comune di Reggio Emilia  
**REGGIO EMILIA APPROACH®**

\* The *Istituzione* is the municipal body for managing the network of the educational centres for early childhood  
[www.scuolenidi.re.it](http://www.scuolenidi.re.it)

Many of these books and videos present images, drawings and texts by teachers, atelieristas and pedagogistas, and by children in Reggio Emilia's municipal infant-toddler centres and preschools. Writing in which words and images are often interwoven, making visible and perceivable an unusual image of childhood. A new and hybrid language that declares and supports the value and the importance of the aesthetic dimension of knowledge.

Part of our publishing activity is the **Rechild** magazine, created to respond to national and international demand for information, in-depth exploration and exchanges about education and childhood. The magazine can be downloaded from our website: [www.reggiochildren.it](http://www.reggiochildren.it)

The **exhibitions**, conceived as travelling “democratic piazzas”, act simultaneously as tools for professional development, research and communication. They are also accessible for a non-specialist public and invite reflection on childhood and on the role of education.

The exhibitions are juxtaposed with **ateliers**, themselves generators of exhibitions, interesting and joyful “workshops” for experimentation and construction of learning and knowledge through quality processes.

Both exhibitions and ateliers are requested and shown in different languages everyday around the world.

### ***A festive thought***

*Visual metaphor in children's learning processes*

This catalogue presents a research carried out by Reggio Children, the Istituzione of Preschools and Infant-Toddler Centres of the Municipality of Reggio Emilia, and the University of Modena and Reggio Emilia's Department of Education and Human Sciences, which tries to reflect on and make visible the mental processes activated in young children by their understanding and producing visual metaphor in the context of early years services.

Creativity, irony, the capacity for creating analogy and harnessing paradox are presented here, for us to welcome them into daily life with more awareness.

# Clay

*techniques, experiences, imaginaries*

## **Clay**

*Techniques, experiences, imaginaries*

A deep knowledge of the technique of a “language” helps to expand our imaginative capacities. It was the principal reason that suggested we create a manual on clay.

A special manual, because it speaks with a multiplicity of voices: the voice of clay, and of technical competency, the voice of children in Reggio Emilia’s municipal infant-toddler centres and preschools, and of the older children and adults frequenting ateliers conducted by Reggio Children atelieristas.

This curated space is a brief anticipation of the eight chapters in the manual, to be published in 2020, offering interesting technical information and lots of suggestions for education.

## ***Bordercrossings***

### *Encounters with Living Things / Digital Landscapes*

A catalogue of the exhibition shown at the Loris Malaguzzi International Centre since 2015, which is also travelling in other countries, with the aim of imagining a digital poetic: to research into how new media involve children and adults, the ways they create meaning, how they modify communication and the exchange of knowledge; to produce metaphors, utopias, and imaginings for possible futures. Because children venture into the unforeseen and the world's plurality, and confront its changing and surprising complexities, whether in encounters with living things, or the creation of digital landscapes and the discovery of unexpected phenomena.

### *Dialogues with places*

Every place has its own *soul*, and identity; trying to discover it and establish a relation with it means learning to recognise one's own soul. Children in Reggio Emilia's infant-toddler centres and preschools explored the Loris Malaguzzi International Centre while it was a building site, they chose a space they found interesting and designed a work, a gift in harmony and in dialogue with the selected place.

In the exhibition *Dialogues with places*, children's experiences and projects become a large workbook.

### *Mosaic of marks, words, material*

This catalogue presents the exhibition/atelier shown at the Loris Malaguzzi Centre since 2014 and in other countries, a collection of works by young girls and boys in the municipal infant-toddler centres and preschools of Reggio Emilia.

The aim of the investigation was to try, as far as possible, to gain a better understanding of the poetic interweaving between children's drawings and words, in order to restore to drawing, to the instruments and materials, to words and to the children, the cognitive and expressive richness they generate.

## **Theater curtain**

### *The ring of transformations*

The story of the project and of the processes which lead the children in the Diana municipal preschool to the creation of a new theater curtain for the Ariosto Theater in Reggio Emilia: a large fresco, a cosmogony in which each subject represented is interrelated with the others. A part from the extraordinary theme, what is highlighted here is the dynamic of working in groups, how ideas are generated and developed in the group, and how adults intervene.

*“The children have had a taste of the ‘pleasures of thinking’, the excitement, hard work, and joy of thinking together. They have pursued the beauty of ideas, experienced the difficulties of certain moments and the rigor of decision making. They have been impassioned, amazed at the final result of their own work and have appreciated its beauty.”*

## ***The languages of food***

*Recipes, experiences, thoughts*

We are what we eat! But what do we eat? In Reggio Emilia the choice of having and keeping kitchens inside every municipal infant-toddler centre and preschool has always had a strong pedagogical and cultural meaning. Kitchens become a virtuous weave of local culinary tradition, ecology, culture of dialogue, art, and the world. The time for lunch becomes a space of relations and encounter with others and the world.

From this context a cook book was born, made of good recipes, experiences, projects, thoughts.

## CORIANDOLI SERIES

A series created with the aim of disseminating and fostering the “micro-publishing” of the infant-toddler centres and preschools of the Municipality of Reggio Emilia. It is a lively and varied multitude of books, booklets and publications with a common identity in that they are designed and put together directly in schools and centres by teachers, atelieristas and pedagogistas. They represent journeys of research selecting and interpreting the words and strategies in children’s thinking. The protagonists are always the children, their voices, their thoughts, their theories.

The strength of narrative lies in a constant search for new ways of finding a balance between contents and ways of expressing and communicating them. The *Coriandoli* series aims to give greater value to this special “publishing legacy” and promote its wider diffusion and production. The series is conceived in non-standard formats seamless with the character of the original publications and preserving as far as possible their hand crafted features.

### ***We write shapes that look like a book***

A project about the park of the Pablo Picasso Infant-toddler Centre with the aim of supporting and refining the potential for ecological sensibility all children possess. The city initiative “Città *inattesa*” (City *inwaiting*) became an opportunity for extending out gaze, meeting the city park with the same approach, leaving traces of this encounter.

## THE UNHEARD VOICE OF CHILDREN SERIES

Children are real researchers: they elaborate and modify theories, with others and individually, while they interpret the world and things.

School can become the place for research into meaning and sense, for that tension towards knowledge that children also experience autonomously.

*“Children talk, and they have always talked, though their words are rarely listened to and leave no trace.*

*The words of children may at times seem strangely similar to our own, but they recall faraway and unknown worlds and meanings to which we as adults too often remain deaf and insensitive. Giving a voice to childhood thus means recognizing children’s right to be the primary authors of their lives. Giving a voice to children is the courageous adventure of this editorial series that urges us to open our ears and listen to this unheard voice.” Sergio Spaggiari, 1995*

### ***A journey into the rights of children***

A “dictionary” of rights: Diana Preschool children’s point of view about the concept of rights.

And on this occasion the ideas of boys and girls are purposely kept distinct. The publication includes “A Charter of Rights” written by Loris Malaguzzi in 1993.

### ***Martino Has Wheels***

*Martino has wheels* is the story of a girl who loves telling stories and a very silent child who listens to her and smiles. Emma and Martino meet each other on the delicate terrain of relations, their friendship grows with curious and empathetic intelligence, it causes traditional ideas of learning, language and knowledge to stumble.

The book has been written by a mother experiencing the growing up of her son whose special rights, still today, pose important questions.

With lightness, without words, Martino's wheels, turning on these pages, write a universal declaration: difference makes us human.

### **Loris Malaguzzi and the Schools of Reggio Emilia**

*A selection of his writings and speeches 1945-1993*

Despite Malaguzzi's reputation, very little of what he wrote or said about early childhood education has been available in English. This book helps fill the gap, presenting for the first time in English, writings and speeches spanning 1945 to 1993, selected by a group of his colleagues from an archive established in Reggio Emilia. They range from short poems, letters and newspaper articles to extended pieces about Malaguzzi's early life, the origins of the municipal schools and his ideas about children, pedagogy and schools. This material is organised into five chronological chapters, starting at the end of World War Two and ending just before his death, with introductions to each chapter providing background, including the historical context, the main events in Malaguzzi's life and the rationale for the selection of documents.

## ***Bordercrossings***

*Digital Landscapes*

*Encounters with living things*

The aim of the exhibition is to imagine a digital poetic; to research into how new media involve children and adults, the ways in which they create meaning, how they modify communication and exchange of knowledge; to produce metaphors, utopias, and imaginings for possible futures. Like Alice in Wonderland with rabbits, march hares, gryphons, lobsters dancing the quadrille, mock turtles and mad hatters, children venture into the unforeseen and the world's plurality, and deal with its changing and surprising complexities, whether in encounters with living things, or in the creation of digital landscapes, and the discovery of unexpected phenomena.

## *Mosaic of graphics, words, material*

Drawing means imagining, analysing, reinterpreting, communicating. Telling a story means exploring words, metaphors, imagery and emotions, rhythms and pauses, entering into a narrative dimension that plays on both reality and fiction.

Though drawing and storytelling can be autonomous languages, words and stories, silent or expressed, for children almost always accompany and interweave with drawings to form an intelligent and often poetic mosaic. The aim of this exhibition is to try, as far as possible, to gain a better understanding of this weave, restoring drawings, materials, words and children, the cognitive and expressive richness they generate.
